PROFESSIONAL SUMMARY

Senior Frontend Developer with 4+ years of experience building scalable, responsive, SEO-friendly, and high-performance web applications using **React.js** and **Next.js**. Skilled in SSR, API integration, state management, reusable component architecture, and performance optimization. Beyond frontend development, actively explore and work with **Node.js** and **backend APIs** through self-driven learning. Experienced in integrating AI-powered features and working with **AI models using Hugging Face, Ollama, and other AI technologies**. Passionate about building clean, maintainable, pixel-perfect interfaces and delivering modern, user-focused digital experiences.

TECHNICAL SKILLS

Frontend

React.js	Next.js	Astro.js	Vite.js	Redux	SSR and CSR
----------	---------	----------	---------	-------	-------------

Backend

Node.js	Express.js	MongoDB	REST API
---------	------------	---------	----------

Styling

WORK EXPERIENCE

Senior Programmer (Frontend Developer) | [Osiz Technologies](#)

Madurai, Tamil Nadu • Sep 2021 – Aug 2026

Osiz Technologies is a leading software development company specializing in blockchain solutions, cryptocurrency platforms, and enterprise-grade web/mobile applications.

- ▶ Developed and maintained scalable web apps using React.js, Next.js, Astro, and Vite.js, improving performance and UX

- ▶ Built responsive UI components with **HTML, CSS, SCSS, and Tailwind CSS** ensuring cross-browser compatibility
- ▶ Contributed to backend development using Node.js, Express.js, and MongoDB for seamless API integration
- ▶ Worked on DeFi and centralized platforms — **NFT marketplaces, crypto exchanges, trading systems, and prediction apps**
- ▶ Implemented reusable components and optimized frontend architecture for faster load times and scalability
- ▶ Integrated **RESTful APIs** and managed complex state for data-driven applications
- ▶ Performed technical SEO optimization improving rankings, page speed, and **crawlability**
- ▶ Conducted complete site audits and implemented SEO best practices across multiple projects
- ▶ Collaborated with designers, backend developers, and stakeholders to deliver end-to-end solutions
- ▶ Mentored junior developers and supported team knowledge sharing and code reviews
- ▶ Integrated AI-powered features and **AI models** into web applications using **Hugging Face, Ollama**, and other AI APIs, enabling intelligent and automated user experiences.
- ▶ **Developed AI-driven tools** and features for content generation, SEO insights, chatbot functionality, AI visibility analysis, website visitor intelligence, and social media automation.
- ▶ Explored and **integrated AI models with React.js and Next.js** applications, focusing on seamless frontend integration, scalable architecture, API connectivity, and user-friendly interfaces.

KEY PROJECTS

GDC — Global Digital City — [Next.js](#), [Unity WebGL](#), [SEO](#)

Built a metaverse web platform with Unity integration similar to Decentraland, enabling browser-based 3D exploration. Developed responsive UI, integrated Unity WebGL, and optimized performance and SEO.

Parifi — [React.js](#), [Real-Time Data](#)

Built a crypto trading platform with real-time data integration, responsive UI, and optimized performance for seamless trading experience.

Afrigomall — [React.js](#), [Crypto Wallet Integration](#)

Built an e-commerce platform with crypto wallet integration, enabling users to purchase products using cryptocurrency with a responsive and optimized UI.

Osiz Technologies & Bitdeal Websites — [Next.js](#), [SSR](#), [Technical SEO](#)

Developed and maintained corporate websites using Next.js with SSR architecture. Implemented server-side rendering, optimized metadata and schema, improving search engine rankings and page performance.

BlockchainAppsDeveloper & Osiz Labs — [Next.js](#), [SEO](#), [Performance](#)

Developed service and product websites from the ground up with complete technical SEO — structured data, meta tags, Lighthouse score optimization, and reusable component architecture.

AI Model Integration — [Next.js](#), [React.js](#), [Ollama AI](#)

Developed and integrated AI-powered features including blog/FAQ generation, AI-driven SEO insights, and a real-time AI chatbot. Inspired by platforms like Buffer and SEMrush, focused on scalable frontend architecture.

AI Visibility Tool — [Next.js AI Integration](#), [SEO](#)

Built an AI-powered visibility and analysis platform to help businesses understand and improve their presence across AI-driven search and discovery platforms. Integrated AI models and developed scalable dashboards and user-focused interfaces.

Website Visitor Intelligence Tool — [React.js](#), [Next.js](#), [API Integration](#)

Developed a website visitor intelligence platform to help businesses identify, track, and analyze website visitor activity. Built responsive dashboards, integrated APIs, and created data-driven interfaces for actionable insights.

Social Media Automation Platform — [React.js](#), [Next.js](#), [AI Integration](#)

Developed a social media automation tool for streamlining content workflows, post management, and automation processes. Built scalable UI components, integrated APIs, and explored AI-powered features for content generation and workflow automation.

EDUCATION

B.E. Civil Engineering | [Vickram College of Engineering, Sivagangai](#)

2014 – 2018 • GPA: 6.5 / 10

12th Grade — Computer Science | [Dolphin Matriculation HSS, Madurai](#)

2013 – 2014 • GPA: 7.0 / 10

10th Grade | [Dolphin Matriculation HSS, Madurai](#)

2011 – 2012 • GPA: 8.0 / 10

DECLARATION

I hereby declare that all the information provided above is true and accurate to the best of my knowledge and belief. I am confident in my ability to contribute effectively to the growth of the organization.
